PACIFIC RAILROAD INVESTIGATION.

Caleb Cushing and Wm. E. Chandler appeared before the Committee on the part of the Union Pacific Company, and L. E. Chittenden for the Central Pacific. C. P. Huntingdon, Vice President of the latter Company, was also present. After adopting a resolution calling on the proper departments for copies of documents to be used in evidence, the Committee listened to an argument by Mr. Chandler, in which he reviewed the various laws bearing on the subject. He discussed the progress of the roads and reiterated the charges of the resolution. The Committee then adjourned until to morrow, when the Secretary of the Interior and Secretary of the Treasury will be present with the necessary maps and papers.

SPECIAL TREASURY AGENTS.

Secretary Boutwell has concluded to dismiss all Special Agents of the Treasury. His reason for it is that he does not know which are honest and which not, and he believes an investigation, after the dismissal of all, will prove the ones really worthy of trust.

Hon. George A. Halsey, who reluctantly consented to accept the Registry of the Treasury, cannot now, it appears, be appointed to that position, owing to the opinion of Attorney General Hoar, who holds that Mr. Halsey, being a manufacturer, is precluded from appointment by the act establishing the Treasury Department.

The case was then adjourned until to-morrow.

**Boston Police Corruption.**

[By Telegraph to the Pittsburgh Gazette.]

Gooding against a member of the Detective Police, developed in the arrest and conviction of Jennings and Steadman for the robbery of his (Gooding's) store, which was accomplished mainly by his own efforts. The charges are to be thoroughly investigated.

[FIRST SESSION.]

**SENATE: Question of Adjournment Discussed—Indian Appropriation Bill Considered—Report of Conference Committee on Tenure-of-Office Bill Presented and Adopted. HOUSE: Mississippi Reconstruction—Committee of Conference on Tenure-of-Office Bill Adopted—Supplemental Currency Bill Referred.**

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, March 31, 1869.

SENATE.

The House joint resolution for adjournment on April 6th, was taken up.

Mr. FESSENDEN, as Chairman of the Committee on Appropriations, said in his opinion it would be impossible to finish by that time the business pending before the Senate; that the Senate ought not fix a day for adjournment until it should at least dispose of the Indian Appropriation bill.

Mr. SUMNER agreed with the Senator from Maine, that the Senate ought not to concur in this resolution; but the Indian Appropriation bill was not the only, or even the most important, matter requiring the attention of Congress. There was the whole subject of Georgia involved, the question of the admission to representation, and the question as to what shall be done to secure the proper reconstruction of that State. This was the most important subject before Congress, and Senators ought not even talk of going home until the case of Georgia, in all its branches, should have been fully considered and settled. The settlement of the case was important, not only to the people of that State, but also as an example for the other States of Mississippi, Texas and Virginia. Another very important matter, demanding the attention of this session, was the revision of naturalization, so as to prevent frauds.

Mr. HOWE was unable to see why it was wrong to talk about adjournment. It was a peculiarity of the Senator from Massachusetts that the longer he stays here, the more he found to be done. [Laughter.] He (Mr. Howe) would be willing to remain in session a while longer, for the purpose of settling the Georgia case. He could not see any prospect of making such settlement, but he had been here since 1862, trying to reconstruct Georgia and the other Southern States, and yet he believed they were no nearer to reconstruction than ever. If Congress could reconstruct the State, it had had time enough; but to reconstruct successfully, in addition to Congress and time one thing more was needed—good sense.

Mr. SUMNER asked what the Senator from Wisconsin proposed to do with the pending executive business?

Mr. HOWE did not believe there was enough such business to occupy an evening session; but thought, as a matter of course, the Senate would remain in session long enough to dispose of all business of that kind that might come before it.

Mr. ANTHONY said so far as he could recollect, the Senater from Massachusetts (Mr. Sumner) had never voted for an adjournment. He (Mr. Anthony) thought there was no good reason why Congress should not adjourn at the time fixed in the House resolution.

Mr. SUMNER—What does the gentleman from Rhode Island propose to do with Georgia?

Mr. ANTHONY—Well, that is a question that has troubled me a good deal; and I have pretty much come to the conclusion to let Georgia take care of herself.

Mr. SUMNER—Then the Senator proposes to furnish no protection or security to the Union men of that State?

Mr. ANTHONY replied, a bill for Georgia could be passed in a very short time, whenever the Senator having charge of it would go to a quorum of the Senate and ask them to stand by it.

Mr. SUMNER—What does my excellent friend say as to Virginia?

Mr. ANTHONY—I don't think it is necessary to do anything for Virginia at this session.

Mr. SUMNER—Or Texas?

Mr. ANTHONY—I suppose Texas will stand pretty nearly as she has done for the last few years. These States do not seem willing to come in, and I don't think we can help it.

Mr. CONKLING suggested the Senator from Rhode Island, in answering the gentleman from Massachusetts on this subject, bear in mind that the House Committee on Reconstruction, which had for a long time been investigating and considering the whole subject, and which therefore might be presumed to know whether it required any further legislation at this session, had impliedly expressed the opinion that it did not, by twice acquiescing in the proposition to adjourn at an early day.

Mr. SUMNER—I understand, then, that my friend from Rhode Island proposes to abandon these States?

Mr. ANTHONY—Only so far as I propose to abandon at the same time Massachusetts, Rhode Island and the other States.

Mr. SUMNER—Ah! But the Senator knows they are in a situation to require Congressional protection.

Mr. WARNER was unwilling to go home, or to have Congress adjourn, without doing something to settle definitely the status of States now excluded from representation. If they were to be admitted on the terms already offered, they should be told so, and if new conditions were to be imposed, it was the duty of Congress, in justice to the people, to let them know what was required of them.

Mr. HAMLIN moved to amend the resolution so as to fix upon Saturday, April 10th, as the day of adjournment.

Mr. FESSENDEN said he was not at all troubled by the case of Georgia, although he had certain definite opinions on that subject, which, at the proper time, he would express. He was opposed, however, for other reasons, to fixing a day for adjournment. But, if it must be done, he preferred the day suggested by his colleague to that fixed by the House.

Mr. CONKLING was willing to vote for the amendment of the Senator from Maine, (Mr. Hamlin) but would prefer to adjourn on the day named in the resolution, as it had come from the House, though he would be very reluctant to bring the session to an end until Congress should have done all that in his judgment was necessary. The last three years had been filled with sessions of Congress, not merely regular, but extraordinary sessions, brought about by the war, and emblematic of it, and he believed the people were thoroughly tired of the extraordinary proceedings, the justification for which was to be found only in the war, and anxious to resume the old modes and customs of our fathers.

Mr. THAYER, on the contrary, believed the people approved of all the sessions of Congress during the past three years. It was unjust to exclude States, to adjourn now, and in the name of the loyal people of Georgia he demanded Congress should continue in session and provide for their protection.

Mr. ROBERTSON, as a Southern man, was not willing to go home without doing something for the loyal people of the Southern States, and he moved to amend the resolution so as to fix the 15th day of April as the day of adjournment.

At the expiration of the morning hour the resolution went over, and the Indian appropriation bill came up as unfinished business.

Several amendments reported from the Committee on Appropriations were agreed to.

At 3:45 the bill was informally laid aside, and Mr. TRUMBULL, from the Committee of Conference on the bill to repeal the Tenure-of-Office act, made a report, which will be found in the proceedings of the House. He explained it as agreed upon by the Committee. The bill as it had passed the Senate required a direct vote of the Senate in refusing to confirm the nomination of a new appointee, in order to reinstate the old officer, and the change made by the Committee simply provided that when an officer was suspended by the President he should be reinstated at the end of the next session of the Senate, unless the nomination of his successor had been confirmed.

Mr. THURMAN would not vote for the report of the Committee, because, according to his understanding, it would prevent the President from removing any member of his Cabinet in a recess, no matter how obnoxious that member should have become. He supposed that the dominant party would pass the bill in the form that best suited them; but it was at least fair that the minority should be allowed to know what they were voting for, and therefore he moved the bill, as it had passed the Senate before, and the report of the Committee of Conference, should be laid on the table and ordered printed. Lost—yeas 8, nays 45.

The report of the Committee was then agreed to—yeas 42, nays 8. The nays were Messrs. Bayard, Casserly, Davis, McCreery, Sprague, Thurman and Vickers.

Mr. YATES rose to a question of privilege. He had seen a statement in some of the papers of his State, that in the previous debate on the bill to repeal the Tenure-of Office act, when Senator Edmunds quoted an opinion of his, (Mr. Yates'), expressed on the impeachment trial, he dissented from it. The statement was incorrect. On the contrary, he had referred to the opinion and stated all he said on that subject was good law.

The Senate, at 4:15, went into executive session and soon after adjourned.

HOUSE OF REPRESENTATIVES.

An order was adopted to clear the floor of persons not entitled to the privilege, ten minutes before the hour of meeting.

Several bills were introduced and referred, including one for the establishment of a Port of Entry and Custom House at Charleston, West Virginia.

A resolution was adopted directing the Committee on Public Lands to inquire into the expediency of amending the homestead laws, so as to count service in the army as part of the five years required of settlers.

The bill prohibiting the secret purchase or sale of gold or bonds on account of the Government was referred to the Ways and Means Committee.

The Senate amendment authorizing the pre payment of interest on the public debt was reported back from the Ways and Means Committee and the Committee discharged from its further consideration. It appears a similar bill was passed in 1864.

A joint resolution postponing the election in Texas was referred to the Reconstruction Committee.

A resolution was adopted that the Ways and Means Committee consider the expediency of reviving and enforcing the direct tax in the late rebel States.

A resoultion was adopted that the Manufacturing Committee consider the expediency of government aid to the exhibition of industry in New York in 1876.

A bill extending the time for the completion of the Portage Lake and Lake Superior Ship Canal was referred to the Committee on Public Lands.

The House then proceeded to the consideration of the bill reported from the Reconstruction Committee for the organization of a Provisional Government for Mississippi.

Mr. FARNSWORTH, a member of the Reconstruction Committee, offered a substitute for the bill proposing a resubmission to the people of Mississippi of the Constitution already framed, with separate votes on some of its objectionable features. He argued against the bill reported from the Committee, which proposes to reassemble the convention and authorize it to appoint a Provisional Governor, with power on his part to fill all other State offices. That convention, he said, was not popular with the best classes of Union people in Mississippi. To revive it would be to throw in a fresh apple of discord and to prolong, instead of quiet, the disorderreigning.

Mr. WARD inquired whether the gentleman had any charges to make against members of that convention?

Mr. FARNSWORTH declined to discuss the personel of that convention, but remarked that most of the members were themselves candidates for office, and it was suspected by Union men that the whole game was got up in the interest of those candidates. The proposition that those candidates should elect a Provisional Governor, who would have the appointment of all State officers, was exceedingly distasteful to the people.

The discussion was interrupted at two o'clock, when Mr. BUTLER rose and made a report from the Conference Committee on Tenure-of office Bill.

The bill as proposed to be adopted repeals the first and second sections of the original Tenure-of-Office act of March 2d, 1867. The first section of the Senate amendment is left untouched. The second section is amended so as to read as follows: "That during any recess of the Senate the President is hereby empowered, in his discretion, to suspend any civil officer appointed by and with the advice and consent of the Senate, except Judges of the United States Court, until the end of the next session of the Senate, and to designate some able person, subject to be removed, in his discretion, by the designation of another to perform the duties of such suspended officer in the meantime, and such person so designated shall take the oath and give the bonds required by law to be taken and given by the suspended officer, and shall, during the time he performs his duties, be entitled to the salary and emoluments of such officer, no part of which shall belong to to the officer suspended, and it shall be the duty of the President, within thirty days after the commencement of every session of the Senate, except for any office which in his opinion ought not to be filled, to nominate persons to fill all vacancies in offices which exist, to the meeting of the Senate, whether temporarily filled or not, and so in the place of all officers suspended, and if the Senate during such session shall refuse to advise and consent to an appointment in the place of any suspended officer, then and not otherwise the President shall nominate another person as soon as practicable to said session of the Senate for said office."

Mr. BINGHAM, one of the Conference Committee, made an explanation of the report and said it would be acceptable to the Republican party and to the country.

Mr. DAVIS suggested that the whole thing was yielded to the Senate, in leaving the first section of the amendment untouched, which forbids the removal of officers without the advice and consent of the Senate.

Mr. BUTLER, of Mass., Chairman o the Conference Committee, also made an explanation of the report, which struck out, he said, everything that gave to the Senate power to reinstate the suspended officer. He was bound to say he thought the section on the removal and reinstatement of officers repealed the Tenure-of-Office act, as though it had never been passed. He did not think it altered the power of the President from what he had under the Constitution.

Mr. LOGAN suggested whether the difference between the repeal of the Tenure-of-Office bill and the report of the Conference Committee was not the difference between tweedle dum and tweedle dee?

Mr. BUTLER said he would not put it so strong. He thought the difference was right the other way. It was the difference between tweedle dee and tweedle dum.

Mr. BANKS stated what he understood to be the effect of the report. By the first section, if the President made a removal of an officer, calling it a removal, and if the Senate refused to confirm the nomination of the person designated to fill the office, then the removed officer was restored.

Mr. BUTLER—No, sir.

Mr. BANKS—But if the President remove an officer and calls it a suspension, and if the Senate refuse to confirm the nomination made in place of that officer, then the suspended officer is not restored, and if the Senate fail to confirm a nomination at the end of the session, the President can make another nomination during the session.

Mr. BUTLER—He had the same power that he now has under the Constitution.

Mr BANKS—Suspension is a syononym for removal

Mr. BUTLER—Yes.

Mr. NIBLACK said he suggested the other day that the transfer of his allegiance to the gentleman from Massachusetts (Mr. Butler) was only temporary. It had so turned out. He would have to cease following his lead. He regarded the Conference report as a hermaphrodite measure, of which neither the sense nor the color could be discerned. It was an entire failure. He felt that he was out in the cold. He must announce a dissolution of the partnership in the matter. The Democrats could no longer safely follow the lead of the gentleman from Massachusetts. It was suggested to him that the partnership left no assets. He believed that that was entirely true. [Laughter.] He could not vote for this measure. It left the whole thing in a muddle, to be construed in one way when the President was in favor with the party in power, and to be construed in a different way when he was not in favor.

Mr. WOOD said that under the construction which he put on the report, the Senate yielded none of its former positions on the question. The Senate would virtually and practically hold the power to censure the President in the appointment of such officers in the place of suspended officers, as the Senate might dictate. The Tenure-of-Office act was in itself all wrong. It could not be amended, and should be repealed. He was astonished that the gentleman from Massachussetts (Mr. Butler) should have so completely changed his attitude. He hoped the House would not agree to the report.

Mr. POLAND hoped that none of his Republican friends would be deceived by the notice of dissolution of partnership, given on behalf of the Democratic side. He opposed the report as depriving the Senate of its power to check the President in the matter of appointments.

Mr. DAWES desired his vote to be understood, and therefore suggested the matter should go over till to-morrow, in order that the report might be printed.

Mr. BUTLER declined to yield to that motion.

Mr. HOAR opposed the report, as putting it in the power of the Senate to say to the President: "You shall take your choice; either take back that man whom you have publicly declared unfit to hold the office, or you shall not have the office filled at all."

Mr. LOGAN preferred the repeal of the bill, but regarded the report as amounting to the same thing, in a rather roundabout way, and therefore he would vote for it.

Mr. BUTLER moved the previous questions on the report.

Mr. DAVIS hoped the previous questions would not be seconded.

The previous question was seconded by a vote of 98 to 51, and the report agreed to by a vote of yeas 107, nays, 67.

Mr. LAWRENCE said he happened to be out of the hall when the vote was taken. Had he been present he would have voted ays.

Mr. WOODWARD introduced a bill to test the constitutionality of questionable acts of Congress. Referred to Judiciary Committee.

Mr. STEVENSON, from the Committee on Elections, reported a resolution giving the seat during the contest from the Second Congressional District of Louisiana to Mr. Sheldon, and gave notice he would call it up on Friday.

Mr. BURR presented a minority report in the same case.

Mr. DAWES, from the Committee on Appropriations, reported the Deficiency bill. Made the special order for two o'clock to-morrow.

Mr. BUTLER, Mass., from the Judiciary Committee, reported the bill to allow defendants in criminal cases in United States Court to testify. Ordered printed and re-committed.

He also, from Reconstruction Committee, reported a bill for the removal of disabilities from loyal citizens. Ordered printed and re-committed.

Mr. ELDRIDGE inquird whether it was a general bill?

Mr. BUTLER replied it was not.

Mr. ELDRIDGE—Does it apply to everybody?

Mr. BUTLER—Yes, sir; to everybody—to every loyal man.

The bill provides for a general system for removal of political disabilities by petition to the United States Courts in the States and Territories where the persons applying resided during the war.

The House resumed the consideration of the Mississippi bill.

Mr. DAWES addressed the House in favor of the postponement of the bill until next session. He argued the military arm was sufficiently strong, the military head sufficiently earnest, and the military heart sufficiently true, to justify the leaving of the State of Mississippi for the present under military control. Life would be more secure down there under that than any other form of government. He thought it "better to bear those ills we have, than to fly to others we know not of."

Without disposing of the bill, the Senate bill supplementary to the currency act was, on motion of Mr. GARFIELD, taken from the Speaker's table and referred to Committee on Banking.

The Senate joint resolution respecting pay and allowance of enlisted men of the army was passed.

Mr. WHITTEMORE introduced a bill to remove political disabilities. Referred to Committee on Reconstruction.

Adjourned.

CHICAGO, March 31.—At open Board in the afternoon there was a moderate inquiry for No. 2 Wheat and prices were somewhat higher; market closing at about $1,11½@1,11⅝. Corn and other grains inactive. In the evening little or nothing was doing; Wheat was dull and nominally unchanged. Firm feeling in Provisions, but no sales made.

SAN FRANCISCO, March 31.—Flour at $4,50@5,50. Wheat firm at $1,65, strictly choice. Legal Tenders, 77¾.

### IN AN OLD CHURCH.

Through the chancel, quaint and olden,
Streamed the evening sunlight golden,
Firing purple pulpit stair,
And the good preacher there.

Sweet the solemn anthem soared,
Note on note, and word on word,
Ring through the long defiles
Of the dim and ancient aisles.

And upon its calm surcease,
All the air, with imbreathed peace,
Seemed to gather force, and sway
Through the temple, either way.

And the preacher's tones at length
Rolled in circuit, gathering strength,
Swelled around the lofty nave,
Like a sea hymn in a cave.

Echoing from the walls around,
Psalm and prayer with sweet rebound—
Psalm and prayer, and lesson given,
Passed, or seemed to pass, to heaven.

—Victor Hugo, in his new novel, "The Man Who Laughs," says that James II. was in the habit of presenting to his Queen the widows and daughters of noblemen decapitated by Jeffries. These women the Queen sold to William Penn, who sent them over to Pennsylvania as wives for his Quakers. Philadelphians do not know whether to resent this or not for although it is disagreeable to reflect that one's foremothers were thus sold in bondage, it is, nevertheless, pleasant to think that they may have been Duchesses.

### Sumner on the Alabama Claims.

There is great anxiety in all circles to see the speech which Mr. Sumner has prepared to deliver in executive session against the Alabama treaty. This speech is about finished, and the Senator's friends say he considers it the greatest effort of his life. Some of the strongest points of it having been made public, much to Mr. Sumner's annoyance, he insists that it is a most pacific speech, while at the same time it takes "high ground."

The "high ground" consists in plainly saying to England that she is indebted to the United States for ships destroyed, for years of commerce swept away, for heavy bills incurred in maintaining an immense blockade, for troubles and damages along the Canadian frontier, and more than all, and worse than all, the prolongation of the war and the consequent expenses in life and treasure. The pacific part, so far as can be learned, consists in saying to Great Britain: These things are plain, they need no proof, and the way to settle it all is to settle down in a friendly spirit and agree upon friendly terms based on the above admissions.

There is no concealing the fact that several questions are creating anxiety at the English Legation now. The most prominent of these is the settlement of the Alabama claims, and in this connection both the position of Mr. Sumner, and the known agreement between the points as above given from his speech and the views of President Grant, have entirely dispelled any idea of settlement upon any such basis as proposed by Reverdy Johnson.

To complicate this, the increasing interest both here and in Canada, in the question of annexation, looms up as a question soon to assume a definite character and purpose, and to rally a strong party in the Provinces.

There seems to be a general belief, among the representatives of foreign powers, that the present administration will be marked by a very positive foreign policy, and that before it is ended there will be important changes in the relations of our Northern and Southern neighbors to the United States.—*Washington Letter.*

A CORRESPONDENT of a New York paper writes: "You know not what temptations to petty fraud you offer to clerks and cash boys in the great retail stores by putting your change in your purses without counting. It is not more lady-like or grand, but simply more silly, if nothing worse, to affect indifference to the correctness of a business transaction, even a small one. This counsel is suggested by the writer having seen one of the little 'cash' boys in a Broadway store slip a part of the change into his pocket on his way from the cashier's desk to the lady customer, who, I regretted to notice, put the rest in her purse without the least examination. A proper caution on her part might possibly have saved that boy from ruin."

### Diseases Cured by Diet.

Chronic diseases in many cases can be cured by diet. Dr. Bellows gives instances which are of exceeding interest. A gentleman of sixty-four, who wore a truss twenty-five years for inguinal hernia, was advised to discontinue extra carbonaceous food, and has recovered in two years' time so as to dispense with the use of the truss. By taking less carbonaceous or heating and relaxing food, and eating more nitrogenous or muscle and strength-giving food, tone was restored, and the tendons were drawn taut and the bowels retained. A Boston physician, whose father and brother died of heart disease a few years since, became so affected also that he was unable to attend to his practice, and went from city to city consulting physicians, but found no relief. Dr. Bellows ascertained that he was an excessive cheese eater, as were his father and brothers. On reducing the daily quantity of cheese about one-half, he began to recover and is now well. This was, of course, not a case of organic disease. Dr. Bellows' diagnosis was this: Cheese being principally nitrogenous, the excessive quantity eaten daily produced excessive tone and tension of the muscular system, and the heart being a muscular organ the excess of tone and tension was most clearly manifested upon it. A gentleman of scrofulous tendency, who had an open abcess for eight or ten years, abstained from extra carbon and partook of food rich in nitrogen and phosphorous, and the abcess began to heal immediately and in a few weeks ceased to discharge. A gentleman of gouty enlargement of the great toe joints, which required boots of extra width to enable him to walk, adopted natural food exclusively, and in a few months could wear boots of a natural size.

### Death of a Virginia Millionaire.

The richest man in Virginia, Mr. Samuel Miller, died at his home in Campbell county, Virginia, in the neighborhood of Lynchburg, on Saturday. Mr. Miller was the architect of his own fortune, and was a man of such large comprehension of commercial affairs that, had he lived in London or New York, he would doubtless have been one of the money kings of the world. Living in perfect seclusion on his farm, he yet operated in all the great centres of trade, and had not the war greatly impaired his estate, would have left behind him a property second only to that of the greatest of our millionaires. As it is, his wealth is estimated at three millions of dollars. It is not known how this has been disposed of in his will, but $193,000 in securities was left as an endowment for a Female Orphan Asylum in Lynchburg, and $100,000 as a fund for a Chair of Agriculture at the University of Virginia at Charlottesville.

### Hydrophobia—Post Mortem.

CINCINNATI, March 27.—A *post mortem* examination of Timothy Creeden, the man who died of hydrophobia on Wednesday, was held day before yesterday, at which there were several prominent professors and practitioners, of medicine. The larynx was natural, but appeared slightly congested, and contained a little frothy mucous. The æsophagus, stomach, liver, heart and intestines were all found in a healthy condition. The body was well nourished. The brain presented the only unusual appearance, its substance being softer than usual to persons dying of ordinary diseases, and the white substance of the brain showed an entire absence of blood. These conditions were regarded as remarkable, but otherwise no new light was thrown on the problem of death from hydrophobia.

THE recent despatches from Admiral Hoff furnish additional instances of cruelty on the part of the Haytien revolutionists. He says that prisoners taken upon the field of battle wounded, and in some instances fatally, were, in common with others not wounded, shot immediately after combat, quarter on this side being scarcely thought of. Several other persons were shot without any form of trial, upon the mere denunciation of unknown individuals, the reason assigned being for having talked against the revolution. Upon the arrival of Salnave's forces before Aux Cayes, and upon the first attack that was made, the numerous persons who found themselves in prison for minor offences and so-called political prisoners were ordered into the prison court-yard, the sick were carried down, the doors were thrown open and a discharge of musketry was fired into them. This being found insufficient to kill fast enough, rounds of grape and canister were directed against them to hasten this dreadful butchery. Many women were thus sacrificed. All the people who were shot had to stand up facing the firing party, and forced to look upon them while loading and going through manœuvres preparatory to their execution. In most cases, the first fire only wounded and otherwise shattered their limbs. There being no reserve party left to hasten their end, they had to wait about a quarter of an hour, still standing, before the guns were reloaded. A father and son were shot together without any other reason than some silly remark made by the latter. After having uselessly pleaded for the life of his son, the father requested to share his fate, which was gladly accepted by the rebels, as they were murdered before our eyes under circumstances too horrible to relate.

THE OLD RULING FAMILIES OF ENGLAND.—The New York *Sun* says: "The stability of the old ruling families of England is strikingly illustrated by a comparison of some of the members of the present House of Commons with those who sat in the Long Parliament of the times of Charles I. and Oliver Cromwell. That famous Parliament was chosen in 1630. The lineal decendants of at least fifty of its members occupy seats in the present House. Many of them represent towns in larger districts represented by their ancestors, while in fifteen instances they hold seats for precisely the same places which their forefathers represented 230 years ago.

HYDROPHOBIA has been successfully treated with iodine by Dr. Mussey, of Chicago. Of the eight cases promptly treated with iodine not one resulted fatally, nor were any decisive symptoms of hydrophobia subsequently manifested. In four of the cases it was probable that the wounds were from animals really rabid, and not in the other four.

ACCORDING to the usage of Lent, the Pope has blessed the symbolical golden rose, which it is the custom to send annually to some sovereign servant of the Church. There is some curiosity this year to learn the name of the royal personage for whom the rose is destined. Last year the auspicious present was sent to the Queen of Spain.

## PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, March 31, 1869.

The general markets are a little more active, with every indication that a still further improvement is close at hand; it is to be hoped that the stagnation and depression which have so long prevailed are about to give way to that activity and bouyancy which should characterize business at this particular season of the year. The great drawback to business just now is the want of confidence and general distrust in regard to values, and a tight money market, but we are in hopes that these obstacles will soon be removed, and that trade generally will liven up.

APPLES—Are coming in more freely, but with a steady demand, prices are maintained, ranging from $4@6 per bbl, as to quality.

APPLE BUTTER—Is quiet and unchanged, at 90@$1 per gallon.

BUTTER—Is in fair demand, and firm but unchanged; sales prime to choice at 45@48.

BEANS—In better supply—may be quoted at $3,50@$3,75.

BUCKWHEAT FLOUR—Dull; 3@3¼.

CARBON OIL—Is quoted in a jobbing way at 30, for standard white; taking the Philadelphia market as a basis, it is not worth over 28 here.

CRANBERRIES—Sales at $18@$22.

CHEESE—Sales of New York Goshen at 24@25, and the market almost bare.

CORNMEAL—$1,75@1.85 per cwt.

DRIED FRUIT—Dull; sales of peaches at 14 for quarters; 15@16 for mixed and 18@19 for halves. Apples at 10@12, as to quality.

EGGS—Very scarce with considerable inquiry; may be quoted at 27@28.

HAY—Tight pressed hay is being sold on wharf at $23@25, for good to strictly prime.

HOMINY—$6@6,25.

HEMP—Quoted at $220 per ton.

PROVISIONS—The market is steady with a good city and country demand while prices remain unchanged. Sales of Bacon at 14½@ for Shoulders; Ribbed Sides, 16¾@ 17; Clear Sides, 18@18¼, and Sugar Cured Hams 19½. Steamed Lard, 19½, kettle rendered, 20@20½. Mess Pork $32,50. Dried Beef 21.

POTATOES—In good local demand with regular sales, in store, at 75@80 per bushel.

PEANUTS—10 cts per pound.

GRAIN—Wheat is quiet and nominal at $1,43@1,45 for No. 1 Spring and $1,50@ 1,53 for Winter. Oats dull and unchanged at 64 on track and wharf and 67 @68 in store. Corn is dull at 70@73 for White and 75@78 for prime Yellow. Rye is very dull and cannot be quoted above $1,40. Barley dull and nominal at $1,35 @2 for fair to strictly prime Spring.

SEEDS—There is a very fair demand for Clover, with sales at $10@10,50, and Timothy at $3 50@3,75. Flaxseed quoted at $2,45@2,50.

SALT—Is quiet but steady, and is still quoted at $2 by the car load.

SORGHUM—60@65c.

FEATHERS—A shade firmer, and we now quote live geese feathers at 80 to the trade, and the usual advance in a retail way.

FLOUR—The market is firmer with a slightly improved demand, but as yet prices are not quotably higher. Spring Wheat brands $6,25 to 6,75@7. Winter Wheat $7,50@8. Rye Flour $7,00@ 7,25. The following are the Pearl Mill prices for their brands of flour made of the best wheat: Pearl Mill three star green brand, in barrels, $9,90 in sacks $9,60; double extra in barrels $9,00, and in sacks at $8,90; Pearl Mill family in barrels, $8,40, and in sacks at $8,00, Spring Wheat brands in barrels $7,50, and in sacks $7,00. The Pittsburgh City Mills prices are as follows: Choice White Winter Wheat Flour, in bbls, $9,30, and sacks $9,00, choice Red Winter Wheat Flour, in bbls, $7,75, and in sacks $7,50; choice Spring Wheat Flour, in bbls, $7,30, and in sacks, $7 per bbl.

LARD Oil—Sales No. 1 at $1,60@1,65, and No. 2. at $1,28@1,30.

SUGARS—Crushed 18½; "A" Coffee 17½; "B" 17¼; Ex "C," 17; Cuba, 13@15; Porto Rico, 13@15; New Orleans, 13@16, as to quality.

## RIVER NEWS.

The Monongahela River was at a stand last evening, with 19½ feet in the channel while the Allegheny was rising with 20½ feet by the marks.

Weather yesterday was cloudy and raw, with mercury down to 41 at noon.

There has been no arrivals or departures aside from the regular packets, since the date of our last report. The Waunanita from New Orleans, is among the first boats due.

The Emma No. 3, Capt. J. H. Marratta, will positively take her departure for New Orleans to-day, and passengers and shippers should bear this in mind. She is an excellent boat.

The Mollie Ebert, Capt. G. W. Ebert, with the veteran Standish Peppard, in the office, leaves for St. Louis and Missouri River to-day, without fail.

The Ida Rees No. 2, Capt. Thompson, will positively clear for St. Louis and Fort Benton to-day.

The Messenger arrived at St. Louis on Monday.

The Andrew Ackley, Capt. Vanhook, is advertised to leave St. Louis for Fort Benton to-day.

The Carrie V. Kountz, G. B. Allen, Fannie Scott, and Henry Atkins, burned at St. Louis, on Monday, was all destined for the mountains.

—The Waunita, left Cincinnati for Pittsburgh on Monday.

—The Robt. Burns was loading at Cincinnati on Tuesday for Pittsburgh.

—The Glendale was at Louisville on Monday, as was also the New York at Evansville.

—The Bayard, Capt Geo. D. Moore, is the regular packet for Parkersburg to-day, leaving at noon.

—The liabilities of the Dexter, amount to about $30,000. The surrender to her creditors was voluntary on the part of her owners.

—The new mountain boat Nick Wall, Capt. Tom Poe, is up for St. Louis and Fort Benton, as is also the Ida Rees No. 2, Capt. Thompson.

—Capt. J. Alex. Frazier has sold the G. A. Thomson to Oliver Dotson, of Omaha, for $10,000. She goes in the wood trade on the Missouri River.

—The Kate Putnam, Capt. G. W. Reed is announced for Nashville, and all intermedite points forthwith. She is in tip top condition for business.

—The Mollie Ebert, Capt G. W. Ebert, is filling up steadily for St. Louis and Missouri River, and will take her departure to-day. Capt. Standish Peppard, will be found in the office.

—The new mountain boat Collossal, Capt. M. A. Cox, is now at the landing ready for business. She is pronounced, in all respects, one of the most complete boats yet built for the trade, and is hard to beat.

—Napoleon B. Jenkins, pilot of the ill-fated America, has appealed from the decision of the Local Board at Cincinnati, revoking his license, to Colonel J. V. Guthrie, Supervising Inspector of the Sixth District. Colonel Guthrie will not examine the case until the Supervising Inspector of the Sevent District has sanctioned the appeal.

—The Louisville *Courier* says: The towboat Ajax arrived from New Orleans, yesterday, with six boats and eighteen barges (empty)—the biggest tow ever brought up the river, and came over the falls yesterday and departed for Pittsburgh. Her tow was 200 feet wide and 800 feet long. Joseph Dougherty and John Stafford are her pilots.

—Capt. Alex. McClain died at his farm, one mile above Moscow Ohio, Sunday night, aged seventy-three years. He was a pioneer steamboatman, having been engaged on the river nearly half a century. He quit active river life in 1847, his last engagement being on a snag-boat used for cleaning out the Ohio river. Capt. McClain leaves a family in good circumstances.

—The case of Chas. Lattimer vs. the city of Columbus, Ky., came up last week in the U. S. District Court, now in session at Paducah. The plaintiff declares that in August, 1861, his boat, the B. P. Cheeney, then plying between Cairo and St. Louis, was boarded at the city of Columbus by a mob, captured and carried within the Confederate lines, and lays his damages at $100,000. Columbus enters a plea of "not guilty," and under that plea proposes to show that there was no tumultuous assembly in the city at the time; that the boat was captured by Confederate soldiers who came there for that purpose, and were not citizens thereof, and that the capture was made without the consent or knowledge of the authorities of the city. The city contends further that the capture was effected by and through the connivance of the brother of the plaintiff, who was Captain of the boat. The city also relies upon the statute of limitations as barring the right of recovery on the part of the plaintiff. No decision had been rendered on Thursday.

### River and Weather.

ALEXANDER H. STEVENS, Vice President of the late Confederacy, is on his death bed at Macon, Georgia.

THE Philadelphia *Press* complains that too much water is used, rather wasted, for cleaning the pavements in that city. We never heard such a complaint here. Our people are not very extravagant with water.

THE Paraguayan question is under investigation by a Congressional Committee. All the participants in the WASHBURNE imbroglio are to be examined, with some faint prospect that reliable results may be arrived at.

THE approximating track-layers of the Pacific Railway are expected to meet by the 15th of May—six weeks hence. The completed construction of the entire line, in accordance with the express engagements of the companies, need not be looked for before the close of the year.

PRESIDENT JOHNSON, it will be remembered, appointed a number of officers just as his term was expiring, and had them rushed through and confirmed by the Senate. The commissions have not yet been issued, nor is it probable that they will be. The Attorney General has the matter under consideration, however, and in the meanwhile the old officers retain their places.

IT DOES not surprise us to hear that the Pacific roads have failed to pay the regularly accruing amounts of interest, on the bonds issued to them from the Treasury. It was known, last autumn, that these payments had only been partial, but the precise figures seemed to be withheld from the public. The monthly statement of this date will inaugurate the regular publications which are hereafter to show exactly the financial relations of these companies to the Federal government.

THE probable defeat of the arrangement for the lease of the Cincinnati and Dayton Railway to the Erie Road will have the effect, it is thought, to bring about the construction of a new line between these points, for the purpose of perfecting the Erie connection with Cincinnati. Messrs. GOULD, FISK and Company have an engineer engaged in the examination of routes, and avow their ability to build the sixty miles of road within as many days. All this seems to be credited by our confiding friends of the Cincinnati press.

WE HAVE heretofore ventured to express the opinion that the decisions of the Supreme Court, in the Oregon case and in that of Bronson *vs.* Rhodes, were shaped expressly with the view, on the part of that tribunal, of preparing the country for an ultimate judgment affirming the constitutionality of the Legal-Tender Act. This opinion is sustained by an article, in the last number of the *Merchants' Magazine*, which, reviewing the two decisions already given, regards them as clear indications that the validity of the law is to be absolutely affirmed.

WE FIND a forcible illustration of the wisdom of the President's decision, to avoid unnecessary and premature interference with Republican office-holders, in the situation of affairs in Massachusetts. By a quiet, but dignified and firm resistance to all improper Johnsonian nominations, the Senators from that State succeeded, long before that President retired from office, in securing honest and capable Republican incumbents for every important place in the State. The result is that, now, there are scarcely any of the offices in which either Senator desires a change. What is so generally true of Massachusetts is found to be less frequently the case in other States, but still there are enough of these office-holders of the right sort to justify fully the rule laid down by President GRANT.

NEVADA ratified the XVth article, because the omission of the word "nativity," from the original draft, left intact the right of the State to exclude the Chine from citizenship. On the other hand, Rhode Island hesitates to ratify the same article because, among other objections, she doubts the surviving power to withhold her suffrage from any nativity whatever. This incongruity of judgment is the more remarkable since, of the two States, Nevada has vastly the more to apprehend from the immigration of foreigners uneducated up to the full standard of American citizenship. While the existing system of naturalization prevails, either State is alike protected from the mischiefs which that system nominally avoids—and no naturalized immigrant, with sense enough to take care of himself, would be likely to remain in Rhode Island, without larger inducements than the rest of the world can discover.

THE MEETING of the Oil Producers' Association, at Titusville, yesterday, resulted in an earnest expression in favor of the passage of a free pipe-law through the Legislature. We seldom have occasion to notice any popular movement which is more incontroyertibly supported by every consideration of justice and of equal privileges to all, than is this demand of the oil-producing citizens of the Commonwealth. It tells the whole story to say that they simply ask for an undeniable right, and that they will be completely warranted in holding those officials, whose acts impede the proper course of public equity, to the sharpest responsibility therefor. There may be less of hesitation, among those whom this concerns at Harrisburg, to accede to the popular wishes, when they are assured that the peculiar tactics, which have thus far been developed on this question at the Capital, are thoroughly understood by the people, and will be remembered at the right time and in the right way. The expediency of a prompt reconsideration, of the line which seems to have been taken, is therefore suggested as worthy of consideration at Harrisburg.

COUNCILS have authorized the Market Committee to select a suitable site for the erection of a new market house for the accommodation of the people residing in the upper wards of the city. The sites on Pennsylvania avenue suggested have suddenly found fictitious values and are held at fancy figures, which the Committee cannot think of paying, even if the members were anxious to locate the new market place on either of them. It is a little singular that property holders as a mass perpetually clamor for retrenchment and a saving of the public moneys, but individually they do not permit that feeling to influence them in fixing a price on property needed for municipal purposes when the city takes the field as purchaser. The gentlemen who fancy that there is a plum to be made out of the property they hold, and on which the public eye has been set for a market place, count without their host, for the Committee have determined that no job work can be attended to just at this time. Any of our readers having suggestions to make or views to offer on the site to be selected, should place themselves in communication with Mr. MCEWEN, Chairman of the Market Committee.

THE OFFICE-TENURE QUESTION was considered by the Conference Committee yesterday, but, at this writing, no result is reported. We need not repeat the expression of our opinion that but little is to be hoped for from the present Committee. And that little is altogether due to the fact that, the President declining to take any part in the controversy as it stands, the opposition to the Senate bill is not backed either by the weight of an official influence, which, at one time, seemed to be relied upon by Gen. BUTLER and his friends, or by that of a sympathizing public sentiment which now, in fact, preponderates the other way. Moreover, of the three Committee-men who are counted against the Senate bill, one, Mr. C. D. WASHBURN, is known to be ready to accept any reasonable adjustment. If he should now concur with Judge BINGHAM and Messrs. TRUMBULL and CONKLING, a solution of the difficulty would be reached. Otherwise, a new Committee will be had, and then the question will be speedily settled. The country, the President, the aspirants for office, the Senate, and even the House itself, are all weary of this unprofitable wrangle, and the pressure from all these quarters. except the House, now tends so strongly in favor of the modified bill, that the House will also find it advisable to go with the current. A decided majority of the Republicans in both Houses have already assented to it, and would have adopted it last week, except for the opposition of an active minority, which can gain none of its points except by Democratic votes.

SOUTHERN RECONSTRUCTION occupied the attention of the House yesterday, the particular subject being the status of Mississippi. The substitute bill of General FARNSWORTH provides for an election under the Military Governor, at which the Constitution is to be submitted separately, and the objectionable sections are to be voted on separately. We have seen the opinion expressed that no legislation touching the disorganized States would be matured at this session, but that is merely a conjecture. While Congress is really anxious to adjourn at the earliest possible moment, the pressure from without, as well from those States as from the public at large, urgently demands the passage of the measures necessary to the restoration of the last of them to the Union.

However Mississippi may be disposed of, the case of Georgia cannot be overslaughed; the Reconstruction Committee have agreed on a bill which covers its ground, and which is likely to secure the support of the Senate.

This bill is thorough enough, since it abolishes the present Legislature, and places unlimited power in the hands of Governor BULLOCK. It also reassembles the original Legislature, imposes the test oath qualification, and declares the expulsion of the colored members void.

Texas and Virginia are equally awaiting the Congressional action, without which they must continue to be excluded from their "practical relations."

The country will thank Senator SUMNER for his sharp protest against any talk of adjournment, until all these questions, as well as others of nearly equal importance, shall have been adjusted. The XLth Congress altogether failed of its duty in respect of these questions, but better things are hoped for from its successor. The omission of its plainest obligations, in the interests of the final pacification of the country and especially of those four States, will be simply inexcusable—and members will run no risk in so interpreting the public sentiment.

## CONNECTICUT

Holds her election on Monday next, choosing a Governor, with other State officers, a Legislature and four members of Congress. For Governor, the Republicans have nominated MARSHALL JEWITT, who was beaten by ENGLISH last year, but who expects to return that compliment to the same gentleman next week. Of the opposition nominees for Congress, wo, DIXON, late United States Senator, and BABCOCK, are Johnsonian renegades from Republicanism, who have found their natural place among the "Democracy;" a third is Mr. W. H. BARNUM, late member from the Bridgeport district, about whom all the world wonders that the charges of bribery against him, in the matter of his election, were not investgated by the last Congress.

The interest of this election turns especially upon the issue, made under the XVth Article, of equal suffrage. Upon this issue, presented under a proposed amendment of the State Constitution, the Republicans were defeated three years ago. Since that time, it is believed, not without reason, that a strong reaction, in the popular sentiment in Connecticut, has kept pace with advancing opinions in other portions of the country, and that the present issue will command the undivided support of the Republicans. This line of progress is also manifested among the opposition, five of whose nine principal candidates stand on their records in favor of equal suffrage for all men.

The State has always been closely contested by the politicians, the opposition majority a year ago having been but 1,764, while that for GRANT in November was only 3,041. Three of the Congressional districts went against us in April, and for us in the Autumn. But, however these districts or the State ticket may be decided next week, the battle is really to be fought on the Legislature, which is to act upon the main questions at present occupying the popular mind, and upon this point we have very comfortable assurances that Republican majorities will be chosen.

## OUR INDEBTEDNESS ABROAD.

An article in the *Merchants' Magazine* for March on "The Advantages and Disadvantages of our Foreign Indebtedness" forcibly sustains views which the GAZETTE has already expressed. Admitting that a foreign creditor may be undesirable for the Treasury, since it is always then possible for the merely financial situation to be complicated with the embarrassing entanglements of international questions, the *Magazine* holds that there are important compensations to balance that objection. Our bonds, before their maturity, are likely to be replaced with others at a lower rate of interest. With these placed in foreign markets, a corresponding amount of capital is disengaged at home, where our average rate of interest runs at least two per cent. above that of Europe. A reduction of but one per cent. in interest on the whole debt would be nearly $25,000,000 per annum saved to the country. These securities, while in American hands, are not protective, owners being to that extent inactive consumers. By the exchange, we secure an equivalent addition to our active wealth, and in such shapes as our current wants may call for. The large price for money here shows that we can make it more productive than the foreigner does, and goes directly to prove that we are realizing, and shall continue to realize, more upon the capital received than we pay in interest or in the difference in principal. Otherwise, this course of transaction would not have continued, as it has, for six years without one marked interruption, saving us from an exhaustive drain of gold and yielding a healthy reinforcement to the industrial and mercantile elements which underlie alike our commercial prosperity and our political security.

According to the most careful estimates, about $700,000,000 of United States bonds and $300,000,000 of other securities, are now held abroad; four-fifths of which have been sent out since 1862. Upon these Government securities we pay to Europe about $40,000,000 annually for interest, in gold or in other American products. This is no more a loss than would be any other interest-payment, by the debtor to the creditor, for the use of his capital. The debtor is always presumed to get a valuable consideration for the interest paid. These are substantially the reasons upon which a high financial authority regards "our foreign indebtedness as being less of an evil than many suppose."

THERE is much solid good sense in the following law recently passed by the Legislature of Michigan. Such an enactment for Pennsylvania would save many a precious life, and in a large measure do away with the countless accidents which the subjoined act is intended to prevent:

SECTION 1. *The People of the State of Michigan enact*, That any person who shall intentionally, without malice, point or aim any fire-arm at or toward any other person, shall be guilty of a misdemeanor, and shall be subject to a fine of not more than $50 and not less than $5.

SEC. 2. That any person who shall discharge, without injury to any other person, any fire-arm, while intentionally, without malice, aimed at or toward any person, shall be guilty of a misdemeanor, and shall be liable to a fine of not less than $100, or imprisonment in the county jail not to exceed one year, or both, at the discretion of the Court.

SEC. 3. That any person who shall maim, or injure, or cause the death of any other person by the discharge of any fire-arm, intentionally, without malice, pointed or aimed at any such person, shall be guilty of a criminal offence, and shall be liable to a fine of not less than $100, or imprisonment in the State Prison for a period of not less than one year, or both, at the discretion of the Court. Any fines collected under the provisions of this section shall belong to the persons injured or maimed, as aforesaid.

OUR LOUISVILLE exchanges learn from Tennessee that there is much uncertainty about the future movements of Ex-President JOHNSON, says the *Courier-Journal*:

"It is well understood that he desires to be the gubernatorial candidate, but the general sentiment among conservatives throughout the State is that unless the United States Supreme Court decides favorably to the disfranchised masses, a canvass would be love's labor lost. Everything depends upon the coming decision, and with that declaring the franchise law unconstitutional, there is little doubt that Johnson would be the coming man. His election would be a dead certainty. It is expected that the Court will give its decision within the next ten days. In the meantime, Johnson will visit Knoxville, Nashville and Memphis, and will probably speak at each point.

THE Nashville *Press* announces the arrival of "six or eight well-to-do families from Pennsylvania." The *Press* adds:

"A goodly number of families will follow them to our State in a short time. The company in question have purchased lands at Sneedville, on the Nashville and Northwestern Railroad, and propose to engage in farming and stock raising. They will prove a valuable acquisition to the community whither they are going."

### Bismarck on Grant.

The following are the words in which Count Bismarck proposed Gen. Grant's health on the 4th of March:

"Permit me, gentlemen, to interrupt your conversation for a moment while I say a word about the occasion that has brought us together. This is the day which on the other side of the Atlantic the victorious commander in the service of the United States enters on his office as President. That event, inasmuch as it deeply interests the United States, has a special claim on the sympathetic interests of this country, for it was a King of Prussia, Frederick II., who, at the birth of the great American Republic was the first among the non-belligerents to recognize its independence. As to our subsequent relations with the United States, it gives me the greatest pleasure to be able to state as a fact, not only from my personal experience as a Minister of Prussia, but from the archives of our history, that the cordial understanding inaugurated by Washington and Frederick has never suffered the slightest alteration. Not only has no difficulty ever arisen between the the two countries; nothing has ever occurred between them which so much as call for an explanation. It is then to me a most agreeable, as well as an appropriate duty, to call on you to unite with me in drinking German wine the health of the President of the United States, Gen. Grant."

### The Union Remembered Heroes.

Three hundred and sixteen thousand two hundred and thirty-three Union soldiers, nearly a third of a million, lie buried in the seventy-two national cemeteries under the charge of the Government. This is, let it not be forgotton, but a portion of our great sacrific. Thousands of bodies were never recovered, and every village in the North guards one or more, frequently its scores, in its country grave-yard. Of more than one-half of these three hundred thousand we have the names, but fully one hundred and forty thousand rest under mounds legended with that simple word of saddest force, "unknown." Of the whole number less than one fifth now sleep in their original beds. Two hundred and fifty-seven thousand have been removed from the rude trenches of the battle-field, their shallow graves by the roadside, the bare unsightly fields of the hospitals, the Gehennas of the rebel prison pen, to orderly enclosures and respectful graves, over whose still and solemn rows the national flag floats day and night.—*Phila. Press.*

### Railway Items.

THE ERIE ROAD.—After considerable deliberation the C., H. & D. Railroad rejects the lease proposed, between the two roads, the alleged reason being a clause in the law passed lately, which would make the C., H. & D. liable for debts contracted along its line by the Erie. There are probably additional good reasons which are not made public.

The Sandusky, Mansfield and Newark Railroad has been leased by the Baltimore and Ohio Railroad Company for ninety-nine years, the latter to take possession on the 1st of May. The object is to form connections, *via* Toledo, with Michigan roads, and with this object in view, negotiations are now pending fer the right of way from Monroeville to that city—the connecting link to be built if satisfactory arrangements cannot be made with the Lake Shore Company for the use of their line running into Toledo.

Two Indians implicated in the attack on Diamond Railroad train were hung at Sun River. —At Princevile, Peoria county, Illinois, on Monday evening last, Joseph H. Newkirk, son-in-law of Joseph Parnell, entered the house of his father-in-law, armed with a large corn knife, and declared his intention of murdering the whole family. Finally yielding to the entreaties of the family he desisted, and upon their giving up all the money in the house, he took a horse from the stable and went to Peoria. He was arrested there by the police, and a party of men arriving from Princeville in search of him, told his story. He was sent to jail to await the result of Mr. Parnell's wounds.

### Breach of Promise Extraordinary—Beware of Wishbones.

A breach of promise case is on trial in New York, the plaintiff in which alleges that one night, at her mother's house, the defendant found a dry wish bone, and proposed that they should pull it. The bone broke, each holding a piece, and the central part fell upon the floor. This, the plaintiff holds, was interpreted by the defendant as a sign that they should marry soon. He explains by saying that he remarked, "It seems we are to be married at the same time; wouldn't you like it?" The plaintiff answered, modestly "I'll bet I would!" This is a warning for unwilling batchelors to keep shy of wish bones or to pull them without after comment.

A ROPE is in course of manufacture in England, which, it is asserted, is larger than any one heretofore made. It is a round wire rope, 9¼ inches in circumference, 11,000 yards long, and weighing upwards of sixty tons. The rope consists of six strands, ten wires in each strand, and each wire measuring 12,100 yards. The whole length of wire is 726,000 yards, or 412½ miles; the six strands surrounding a hemp centre of 27 threads of rope yarn, made from Petersburg clean hemp, each thread measuring 15,000 yards, or a little over 230 miles. On the completion of the manufacture, the rope finally receives a good coat of composition of Stockholm tar and boiled linseed oil. The wire is all tested, and is guaranteed not to stretch more than six per cent. at furthest, without breakage. Some samples that were tested recently broke, after a tremendous strain after stretching only four per cent.

PROF. R. T. Brown estimates that the coal and iron fields in Indiana cover an area of about eight thousand square miles, and that the greater portion of it is accessible without the expense of shafting or pumping in its mining.

### The Columbus Family.

It is a curious fact that there are no known descendants of Christopher Columbus left on earth. He had two sons, one of whom, Don Diego, rose to distinction as an Admiral, and the other, Fernando, as a scholar. Fernando was a great traveler. He not only thrice visited America, but subsequently traversed the whole of Europe, and almost every accessible portion of Asia and Africa. He appears to have been a profound scholar, and a thoroughly good man. In his will he stipulated that his library, containing twenty thousand copies, which he gave to the Cathedral of Seville, should be free to the people, and so it is to this day. From books in this collection the late Washington Irving obtained a considerable portion of the information on which his "Life of Columbus" was founded. The following quaint epitaph, almost obliterated by time, appears upon the tablet which marks the site of his tomb: "What doth it profit me to have sprinkled the whole world with my sweat; to have three time crossed to the new world discovered by my father; to have embellished the shore of the tranquil Guadalquiver and preferred my simple tastes rather than riches; or that I have assembled round thee divinities from the sources of the Castalia and offer to thee the riches gathered by Ptolemy; if, passing in silence over his stone, thou shouldst fail to address a single salutation to my father's memory, or to myself a slight remembrance?"

THE New York *Express* thinks that nine-tenths of our people eat too much flesh. It is a positive injury instead of a benefit, when eaten twice a day, even to the hard physical worker. This community could live on at least one-half the flesh it devours, and be all the better for the change. We are not sure that if we all ate one-third only of what is now consumed in the form of steaks, joints, cutlets, etc., we would not be the gainers in health and strength, as we would certainly in pocket.

### Progress of Pacific Railroads—Obstruction on the Central.

[By Telegraph to the Pittsburgh Gazette.]

OMAHA, Neb., March 31.—Two miles of track were laid yesterday on the Union Pacific Railroad, reaching a point more than twenty miles west of Ogden, and about fifty-five miles east of Monument Point. Parties just arrived from California report the Central Pacific Railroad blockaded on account of snow, and their work on construction nearly suspended. The Government agents inspecting the Central Pacific Railroad report it much inferior in construction to the Union Pacific Railroad, and their buildings and equipments not at all adequate for the business anticipated or in accordance with the requirements of the Government.

### Large Fire at Chicago.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, March 31.—About half-past seven o'clock this evening a fire broke out in the feed store of Stein & Brothers, 332 Randolph street. It was completely destroyed, with contents. Loss about $2,000. The fire communicated to No. 336 same street, occupied by M. Reise, as a wagon shop. This building, with contents, was also destroyed; loss $4,000. No. 338 shared the same fate; it was occupied by F. Hayman, as a dwelling house; loss about $2,000. Total loss about $8,000.

### A SIGNIFICANT LETTER.

LOUISVILLE, March 22d, 1869.—Find enclosed P. O. order for * * * which you will please place to my credit, and send immediately half a gross of Blood Searcher, and a full supply of circulars.

The demand for your medicine is gradually increasing, and I believe will eventually take the place of other similar preparations, now being extensively advertised throughout Kentucky and the Southern States, but there is little advertising needed that will reach the masses. Circulars will do very well in the locality where the Blood Searcher is sold, but the greater number are only to be reached through the medium of a popular newspaper, a few insertions is all that is required. Let the people of Kentucky once know that DR. KEYSER'S BLOOD SEARCHER can be had at the Medicine and Toilet Depot, Louisville, Kentucky, and I guarantee a profitable return. I have an extensive acquaintance throughout Kentucky and the South, and though I claim not to be an exception to the generality of my fellows, I flatter myself that the name of W. W. WILLIAMS, as Agent for the Blood Searcher, will at least not lessen the demand, but on the contrary, will induce many to take hold of it, and when they have done so it will matter very little who is the Agent, or where it comes from, DR. KEYSER'S BLOOD SEARCHER will be the medicine they have tested and what they will want. *The Blood Searcher is doing good work in this locality.* There are numbers to whom I have recommended it for dyspepsia, and as a general Tonic, and in every case I have had a good report. There is a gentleman in business opposite my store who has been confined to his room since July last with scrofula, a physician attending every day, and getting no better. Soon after I received your first consignment I sent him one of your circulars, but it was some etime before I heard from him, and not until I sent Mr. Boyd over to see him did he conclude to try it. He is now getting well, and regrets that he did not adopt the remedy sooner. His case was as bad if not worse than that of Mr. Boyd, and will prove a valuable acquisition to the list of cures. Allow me to congratulate you on your removal to your new store, with the hope that it it will in no way detract from your former prosperity. Respectfully,

W. W. WILLIAMS.

To DR. KEYSER, Pittsburgh, Pa.

DR. KEYSER'S BLOOD SEARCHER IS SOLD BY THE GROSS, DOZEN OR SINGLE BOTTLE, AT HIS NEW MEDICINE STORE, No. 67 LIBERTY STREET, ONE DOOR FROM SIXTH. CONSULTING ROOMS, No. 120 PENN STREET.

### THE TRUE MEDICAL DOCTRINE.

Nature, when struggling with disease, indicates unmistakably the kind of assistance she requires. In cases of nervous weakness and general debility, the feeble pulse, the lack-lustre eye, the attenuated frame, the flaccid muscles, the melancholy visage, inform us as plainly as if each organ had a tongue, that *a medicated stimulant is needed.* It does not require the aid of a medical education to understand this dumb appeal for new vigor, from an exhausted system. Every reader of these lines can comprehend it just as well as the graduate of a physicians' college. Let not this demand of enfeebled nature be neglected. Respond to it promptly by commencing a course of HOSTETTER'S STOMACH BITTERS, a preparation uniting, in their highest excellence, the properties of a STIMULANT, an INVIGORANT, and an ALTERATIVE. Before three days have elapsed, from the taking of the first dose, a marked beneficial change will be manifest in the bodily and mental condition of the patient. The pulse will be stronger and more regular, the eye will begin to lose its dull expression, the muscular and nervous systems to recover their tension, and the spirits to improve. Persevere, and a complete revivification of the depressed animal and mental powers is certain. In cases of dyspepsia and biliousness, the same salutary results will be obtained. The appetite will revive, the sallowness of the skin disappear, and all the distressing symptoms which accompany disorders of the stomach and liver, will rapidly subside. The sudden changes of spring often intensifies these complaints by checking the perspiratory action, by which so much morbid matter is evaporated through the pores of the body, and therefore the BITTERS are especially useful to the dyspeptic and bilious at this season.

## FINANCE AND TRADE.

OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, March 31, 1869.

Money being somewhat easier, and rates, which had reached as high as ¼ per cent. commission besides legal interest, could be procured on prime collaterals at 7 per cent. currency and a small commission. This influenced gold, bonds and stocks in favor of higher quotations for gold, the market remaining firm at 131½, with a decidedly strong undertone.

Bonds, although strong at the early board, had yielded a little, but at the close had reached the highest quotation of the day. The slightest indication of an easy money market would attract so many buyers that a short rise would be inevitable.

Stocks are now manipulated by the Erie clique. Fort Wayne is kept up for the purpose of selling out, and the rumors of a consolidation of Fort Wayne and Cleveland keep the market firm in the latter; both roads have declared their 2½ per cent. dividend. Money in the local market is still scarce, although business has not much improved.

Quotations as received by Ph. R. Mertz: Gold, 131½; Silver, 125; Eighty-one's, 115¾; Five Twenties, 1862, 117⅞, do 1864, 113¾; do 1865, 115¾; do 1865, Consols, 112⅞; do 1867, 113; do 1868, 113; Ten Forties, 105½; New York Central, 61¾; Erie, ——; Reading, 91¼; Pittsburgh, Fort Wayne & Chicago Railroad, 124¾; Ohio & Mississippi, 32¼; Michigan Southern, 95⅞; Cleveland & Pittsburgh, 89¾; Chicago & Rock Island, 134⅜; Chicago & North Western, 84½; Chicago & North Western Preferred, 92⅝; Adams Express Company, 58¼; Merchants Union Express, 15½; Pacific Mail, 89¾; Western Union Telegraph Company, 38¾; Gregory, 2,75; Quartz Hill, 92; Corydon, —; Smith & Parmlee, 1,85; W. [By Telegraph to the Pittsburgh Gazette.]

NEW YORK, March 31, 1869.

Affairs in Wall street are in a very mixed state, and we have witnessed to-day the remarkable circumstance of a general upward movement in values on Stock Exchange, in the face of an unusually stringent money market and the complete demoralization of foreign exchange. This naturally excites considerable discussion, but it is merely a repetition of the bull programme of the past year, when prices advanced on tight money, and afterwards declined on general tearing up in financial affairs. The imports of gold and amount on way, being variously estimated at one to six millions of dollars, is very generally discussed. It is the result of recent heavy purchases of bonds by foreign bankers and the sales of gold against them. In the money market the stringent demand continued very urgent until after bank hours. On governments loans made were at 7 per cent. gold early in the day, but later at 7 per cent. gold and 1-32 per cent commission, while at the close there were transactions at 7 per cent. currency and ⅛ per cent commission on stocks. Early business was at 7 per cent. gold, but later at 7 per cent. currency, with commissions added of 1-16@⅛ and ¼ per cent. After 3 o'clock a large crowd gathered on the sidewalk in front of the stock-exchange, and commenced to buy and sell. Money sales were made at 1-16@⅛ and ¼ per cent., and 7 per cent. for currency per annum.

Foreign Exchange market dull and demoralized. Prime Bankers Bills at 7⅜@7⅜ at sixty days, while Bond Bills are 7@7⅜ and Produce Bills are 6½@7.

The gold market opened firm with sales at 131⅛@131⅝, and closing at 131⅛. The rates paid for borrowing were 2½, 4, 3, 6 and 1-32 to flat, and for carrying, 1, 3, 4, 5, 7, 6, 3 and 1 per cent.

Governments; market without special interest and prices well maintained, in some cases slightly above yesterday's. Coupons of '81, 115⅜@115½; do. '62, 118@118⅛; do. '64, 113⅞@114¼; do. '65, 116@116⅛; new do., 112⅞@113¼; do. '67, 113@113⅛; do. '68, 113@113⅜; 10-40s, 105¼@105¾.

State bonds quiet. Missouris, 86½; New Tennessees, 64½; North Carolinas, 55½@56¼.

Stock market during the morning was irregular, but in the main the strong features were New York Central, Rock Island, Northwestern and Pacific Mail. New York Central rose to 161¾, on reports from Albany that the pro rata bill will not become a law. Yesterday the advance in Rock Island was fully maintained and it touched 135½. Dividend Northwestern was firm and Pacific Mail feverish; St. Paul also was strong and moderately active: Western Union rose to 38¾. Express shares neglected.

In the afternoon the market was buoyant, the speculative interest, however, centering in a few stocks. New York Central rose to 162¼; Fort Wayne, 125¼; Rock Island, 131; Exchange Dividend equal to 136; Pittsburgh, 89½; do. new preferred, 92⅞, and St. Paul common, 71⅜. The advance on other shares was less marked, but the whole list was higher. The market subsequently fell off slightly, and closed unsettled.

## LIVE STOCK MARKETS

PENN'A CENTRAL STOCK YARDS, WEDNESDAY, March 31, 1869.

CATTLE—The market has been rather dull thus far this week, the sales in the aggregate being comparatively light, and under the influence of unfavorable advices from the east, buyers are insisting on concessions. There were several droves of good shipping steers sold for New York at prices ranging from 7¼ to 7½ and it is probable that extra fine, such as sold a few weeks since at 8¼, would have brought 7¾, or perhaps 8 cts. It is said, and we have no doubt it is true, that nearly all the operators who have been buying cattle here for shipment for several weeks past, have lost money, and as a consequence they are unwilling to take any more risk than they can possibly avoid.

Peter Kleman, whe heretofore has been one of our largest cattle buyers for New York, has quit the business and engaged in the hog trade, in connection with the arm of Crouse, Emerick & Co., of Philadelphia.

We were unable to get a full report of the sales of cattle. Holmes, Lafferty & Co sold 18 head to E Young weighing 20,775, at 7½; 14 to same buyer weighing 15,925, at 7¼; 13 to Kelly weighing 13,700, at 7½; 91 to Beach & Bray weighing 107,625, at 7¼; and 15 te same weighing 18,000, at 7¼.

SHEEP—The market for this class of stock continues very dull, and notwithstanding the arrivals are not unusually heavy, the demand is only moderate and prices are lower than last week. We quote at 5 to 7 cts gross, for fair to prime fat mutton sheep, and these may be regarded as the extremes of the market. There has been several droves of clipped sheep in market within the past few days, and buyers are making a difference of about a cent per pound between clipped and wooled sheep. The sales on dates below mentioned were as follows:

|---|---|---|---|

| Tuesday, | " | 30 | 1,626 " |
| Wednesday | " | 31 | 1,687 " |
| Total | | | 16,367 " |

HOGS—The Hog market is devoid of any new or important features worthy of special notice. Philadelphia Hogs are a shade lower, while Yorkers are a fraction higher than at the close of last week. The former may be quoted at 11¼@11½, and the latter at 9¾@10¼. The recipts are more liberal, and shippers generally, are expecting a still further decline. The sales on the dates named below were as follows:

## PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, March 31, 1869.

The market was again quiet to-day the volume of business in the aggregate being comparatively light, though the feeling, as a general thing, was stronger than on Tuesday. There was considerable inquiry for spot Crude, emanating from short sellers, and with little or none for sale, an advance of a full cent was offered without meeting with any response from sellers. On the other hand, spot Refined was weaker and at one time sold at a decline of a full cent, but closed stronger. It was currently reported that one speculator who had some 10,000 bbls to receive in Philadelphia to-day, at from 38 down, had gone under, and either refused or was unable to take the oil. For the information of those not regularly in the business, it may be proper to state that the party here referred to is not a Pittsburgher, nor is he, we believe, in any way connected here, with the exception perhaps that there are some some so unfortunate as to have sold him oil.

CRUDE—As already intimated the Crude market was stronger to-day, particularly for spot oil, 16 having been offered without finding sellers—and in one instance, 16⅛. Sale of two lots of 1,000 each, seller to July, at 15¼, with 15½ asked toward the close. July to December, for 500 to 1,000 each month, may be quoted at 17⅛. Prices are reported higher both at Oil City and on the Creek.

REFINED—Spot refined was dull and lower during the early part of the day, with a "bluff" sale of 500 bbls at 29½, but the market closed at 30 with a sale of 1,000 bbls at that figure. Sale 1,000 bbls 2d half April at 32½; 500, April, seller, flat, at 30; offers to buy May to September at 35, and offers to sell April to September at same figure.

### THE LAST PHILADELPHIA HORROR.

The telegraph Tuesday night gave us a brief account of the horrible butchery of a mother and her two children, by the husband and father, and the subsequent suicide by drowning of the latter, at Philadelphia. By mail we have the following particulars:

The name of the murderer and suicide was James L. Blackstone, of the firm of Funston & Blackstone, picture-frame manufacturers, on Market street above Ninth. The family resided in the northwestern part of the city. The first intimation of the murder was the receipt of a dispatch Tuesday morning by Mr. Funston from a relative of Blackstone, to whom the murderer communicated the crime by mail, immediately after its perpetration. The house was immediately visited by Mr. Funston, who, with the aid of police, forced an entrance, and discovered on the kitchen floor the three bodies horribly mutilated and covered with blood. The floor and every article of furniture in the room was completely saturated. So great was the quantity on the floor that the fiend had placed a roll of muslin at the door to prevent the blood from running into the yard. The scene presented was one of the most horrible type, and only equaled by the unparalleled butchery of the Deering family, by Probst, a few years ago.

An examination of the body of Mrs. Blackstone disclosed the fact that the wounds were made by an axe. On the face was a frightful gash, severing the root of the tongue and jaw bone. The throat was cut through to the spinal column. On other parts of the head were a number of contused, wounds evidently made by the blunt part of the axe. The body of the little girl was next examined. The head was crushed to a jelly, the brains protruding at different places. The child had apparently received two or three blows of the blunt part of the instrument. The head of the boy was also crushed in, and bore the marks of several blows of the sharp part of the axe. The head was nearly severed by a gash on the neck. The other portions of the bodies bore no marks of violence. It is supposed the family had just arisen, as the children were in their night clothes. The tragedy took place about six o'clock on Sunday morning, as the neighbors heard talking in the kitchen about that time. Blackstone was a temperate man, and with his family attended church nearly every Sunday.

After the deed he visited a real estate broker and made an arrangement of some property and then walked towards the river, but before reaching it he was arrested by a Justice, who, from his singular actions, supposed him to be insane. He, however, broke away, and, on reaching the Chestnut street wharf, pulled off his coat and hat, and throwing them away, immediately plunged into the river. A handkerchief on which was his name was found in his pocket. This fact, together with the writing of the letter to his father-in-law, informing him of the murder, goes to refute the theory of his being insane.

Blackstone was thirty-seven years of age and his wife thirty-four. They had been married twelve years, during which time they have, as far as is known, lived happily. The boy was eight and the girl three years of age. Depression of spirits, caused by disappointment in money matters, was the probable cause of the terrible deed. Mrs. Blackstone has been heard to state that her husband inherited insanity.

### Washington Items.

It is reported that Mr. Delano, Commissioner of Internal Revenue, and Mr. Boutwell, Secretary of the Treasury, will, with the approbation of the President, shortly remove a majority of the revenue officials in Pennsylvania from collectors to gaugers.

Several Congressmen, who have conversed with General Grant on the subject, deny that he is opposed to every proposition but absolute repeal, as has been published. The President says that he, in common with everybody else outside of Congress, is tired of the neverending discussion, and is willing to accept the Senate bill, or any other that is reasonable, if they will only stop talking.

There were in favor of the Senate office-tenure bill, on Friday, seventy Republicans. A change of from twelve to fifteen votes will secure a concurrence, and end the controversy, which is becoming a serious annoyance to the members of both Houses, all of whom are anxious to secure the removal of various office holders, which cannot be done while this bill remains in force, and nearly all are anxious for an adjournment, that they may return to their homes. This bill is the main thing now which prevents a day being fixed for adjournment.

The following appointments of Postmasters have been made in Pennsylvania: Condersport, Potter county, M. S. Thompson, vice E. O. Reese, resigned; Candor, Washington county, Wm. Brigham, vice B. Kelso, resigned.

Under the amendments of the House of the Judiciary bill, Justices Grier and Nelson will probably go upon the retired list. This bill makes three vacancies, one of which will, no doubt, be filled by Chief Justice Carter, of the District Court.

A dispatch from Macon states that Alexander H. Stephens, formerly vice president of the rebel government, is on his death bed.

Secretary Fish advises the President to be slow and cautious with respect to Cuban affairs, and there is every reason for believing this advice will be followed.

The new Indian policy of the Senate proposes to authorize the President to appoint a Board of not more than ten Commissioners, to serve without pecuniary compensation, who may, under his direction, supervise and control the disbursement of any part of the appropriations made by the act including the contracts contemplated thereby, erection of buildings for residences, school houses and mills, improvement of farms, removal of Indians, organization of schools, and employment of teachers, farmers, mechanics, interpreters and laborers authorized by law, and may remove any such employés and employ others at discretion; and the said Board of Commissioners shall have authority, subject to the President's approval, to establish all necessasy rules and regulations respecting trade and intercourse with Indian tribes, and may, when present at any Indian Agency or Superintendency, suspend such Agent or Superintendent for malfeasance or misfeasance in office, and from and after suspension, such suspended officers shall cease to act until the President otherwise directs, and the President is authorized to divide the country occupied by Indian tribes into districts and to assign two or more of said Commissioners to service in any one of such districts respectively; and the Commissioners so assigned shall in all matters pertaining to said districts have all rights and authority of a full board.

Mr. Sprague, of Rhode Island, predicts our financial ruin, with our present indebtedness, and old Frank Blair declares Sprague is the only man in Congress who comprehends the situation and dares to utter it.

The appointments for the leading foreign missions do not yet appear to have been settled. Mr. Andrew J. Curtin is patiently waiting the announcement of his nomination to St. Petersburg, in Philadelphia, but some way it halts. Some of his friends, some time ago, asked to have it changed to one of minor importance, but which was altogether more pleasant, and they were told that Mr. Curtin need not give himself any uneasiness on the subject. Ex-Governor Thomas, of Maryland, is urged for the mission to Japan.

It has transpired that John Jay or Mr. Motley will be appointed to the English Mission, with the probabilities in favor of Mr. Jay. In that case Mr. Motley will return to Austria.

The indications are that the first Conference Committee on the Tenure-of-Office act will not agree, but that a second Committee, with Butler off, will adopt a bill which both Houses will pass and the President will sign.

The deficiency bill will contain an appropriation of two millions for Internal Revenue expenses.

No. 97. Hanen vs. Balentine.

**Quarter Session—Judge Stowe.**

WEDNESDAY, March 31.—The case of the Commonwealth vs. Bell, Proutt and Graham was resumed.

The defense proved an *alibi* as to Graham, after which a number of witnesses were called as to his character, all of whom testified that his general reputation as a sober, industrious, honest man was good in the community where he resided.

Officer Seth Wilmot was called to contradict Duffey. He testified that Duffey had said in his hearing while in the lock-up, that John Bell had nothing to do with the fire; that he brought him into the difficulty because he had money, and if he, Bell, would go his (Dufley's) bail and give him a hundred dollars, he would leave the county.

Patrick Shay was called to contradict James Pancost as to the payment of $100 to him (Shay) to leave the city and keep out of the way. He testified that Pancost gave him a hundred dollars, which he (Shay) considered was due him for work, and that he (Pancost) said he would make more money out of John Bell than the amount of the reward.

Mrs. Baird was called, and testified that on the evening of October 12, 1868, between nine and ten o'clock, Mr. Bell gave her $25.

Mr. Bradley was sworn as to the reputation of Charles Proutt. He said that so far as he knew his reputation was good.

A number of witnesses were then called, and testified that the reputation of John Bell for honesty and integrity was good, after which the defendants closed their case.

The Court stated that the case would have to be concluded and submitted to the jury before Court adjourned, and that counsel would be allowed one hour and a half for argument on each side.

Mr. Cochran then opened the argument on the part of the prosecution, and Messrs. Taylor, Powers and Gibson followed for the defense.

At the close of Mr. Gibson's argument the hour of adjournment having arrived, Judge Stowe stated that unless the jury preferred to go on with the case, he would adjourn Court, and conclude the case in the morning.

Court then adjourned.

**Destructive Fire—Enterprise Foundry Destroyed.**

Yesterday morning, about half past three o'clock, a fire broke out in the Union Enterprise Foundry, corner of Shingiss and Watson streets, which caused an alarm to be struck from box No. 36, corner of Fifth avenue and High street. Some delay was occasioned in striking the alarm by reason of a difficulty in finding the key of the box. The Fire Department was out promptly, in response to the signal, but when they arrived on the ground the flames had made such headway that all efforts to save the building proved unavailing, everything falling a prey to the devouring element. The building was of brick and owned by Mrs. Leonard. A Welsh congregation formerly used it as a chapel until Mr. William M. Johnson leased it and established the foundry. It was pretty well filled with patterns and finished work, which was all destroyed, entailing a loss upon Mr. Johnson of $6,500, on which there is an insurance of $4,000, equally divided between the German of Pittsburgh, and Germania of New York. The loss on the building will be about $2,500, but whether covered by insurance or not we could not ascertain. The cause of the fire is unknown. Mr. Johnson intends rebuilding and resuming business as soon as possible.

**Pick Pocket at the Gymnasium.**

Yesterday evening about three o'clock, a pick pocket gained admittance to the gymnasium and took from the vest pocket of George Kent, which was hanging on the clothes rack, a silver watch and gold chain, worth about seventy-five dollars. As soon as the theft was discovered, Mr. Kent, who is a lad about fourteen or fifteen years of age, repaired to the Mayor's office to make the fact known and pointed out the party whom he thought had taken the watch. The suspected person was arrested and searched, but nothing was found upon him to lead to the belief that he was guilty. It appears there was a stranger in the gymnasium while Kent was exercising on the trapezand it may be possible that the watch left when he did. There should be a room provided for the safe keeping of clothing, which should be checked and taken charge of by the janitor and returned only on the presentation of the check. The regular members, we believe, have boxes with locks to them, but transient visitors are not thus provided, and, consequently, if they remove a coat or hat, must leave it hanging where any one can get it.

**Prosperous Company.**

The annual meeting of the Northern Central Railway Company, one of the leading roads making connection with our Central Pennsylvania Railroad at Harrisburg, was held recently. From the report of the Board of Directors we learn the gross receipts of the Company during the year were $4,151,351.91; its net earnings $1,189,014.39. The Board of Directors were elected, and subsequently Mr. John D. Cameron was elected President, and Mr. John N. DuBarry as Vice President. Under the Presidency of Mr. Cameron, and his associates, the road has enjoyed signal prosperity. Mr. DuBarry, we presume, will still have the general superintendence as heretofore, a position he fills with such credit. Mr. S. Little, formerly of the Presbyterian *Banner* of this city, is the capable and efficient Auditor of this company, office in Baltimore.

**Drunk and Disorderly.**

John Haver was arrested at Clayton's liquor store, in Diamond alley, last evening, on a charge of disorderly conduct. He went into the store and acted in a disorderly manner, and Mr. Clayton forcibly ejected him from the premises. He returned again, however, and continued to act disorderly, when an officer was called and John was provided with quarters in the tombs, where he will remain until the Mayor's morning Court convenes, when he will probably pay $10 or $20 and costs.

## TEACHERS' INSTITUTE.

**Third Day's Proceedings.**

MORNING SESSION.

The Institute met at ten o'clock. After a song by the choir, twenty-five new members were reported.

On motion, a Committee, consisting of Rev. Mr. Sloan and Messrs. Caldwell, Still and A. T. Douthett, was appointed on publication.

Prof. Jones, of Erie, was introduced and gave a class drill in English Grammar.

Upon the conclusion of this exercise, Miss Hatfield rendered the song "Has Father Been Here" in a creditable manner.

The following Committee on Finance was appointed: Mr. Mark Kelso, Mrs. C. Stottar, Mrs. H. Graham, Miss M. Loudon and Miss A. E. Wilcox.

Mrs. Mary Howe Smith was then introduced, and addressed the Institute on "Map Drawing," as an aid in the study of Geography. The lady gave illustrations on the blackboard, and succeeded in making the subject exceedingly interesting to the large audience in attendance.

Professor Ricoff of Cleveland, endorsed the plan examined by Mrs. Smith, at some length, and stated that in the schools of Cleveland, map drawing, had proven most beneficial.

President Douthett stated that in this county map drawing was taught by nine-tenths of the teachers.

Prof. Northrop addressed the Institute on "Reading" and the manner of teaching it. He considered the development of a taste of reading of vital importance, and gave an instance in the life of Hon. Geo. S. Boutwell, Secretary of the Treasury, whose success he attributed to the taste for reading which had been developed by his mother.

Professor Shoemaker, of Philadelphia, made some remarks on "Elocution," and read in excellent style a poem entitled "Forty Years Ago."

The Institute then adjourned until two o'clock.

AFTERNOON SESSION.

Institute was opened at two o'clock, with a musical exercise by the Philharmonic Society.

Miss M. M'Laughlin, teacher in the First ward, Allegheny, Schools, was then introduced and read in a commendable style a well written essay on "The dignity of the teacher's work," which was received with applause.

Rev. T. K. Beecher next took the stand, and engaged the attention of the Institute for about three-quarters of an hour with a lecture on "School Government."

At the conclusion of the lecture Mrs. Mary Howe Smith made a brief address on "Primary Geography," in which she strongly opposed the system of engaging the minds of children with definitions and text book knowledge alone, when not a single idea was conveyed of the practical value of the truths taught in relation to the every day affairs of life. The speaker illustrated a better method of teaching, by blackboard outlines and an immediate application of the knowledge to the surroundings of the pupil.

After an intetval of ten minutes, Prof. Northrup delivered a lecture on "Eyes and no Eyes," or training the senses. He contended that children's perceptive powers may be well developed though they may not be able to reason at all. The teacher should first kindle curiosity by training the senses of the pupil, and thus a love of learning would be fostertered and study instead of being an irksome task, would become a pleasant pastime.

At the conclusion of this address the Institute adjourned until seven o'clock.

EVENING SESSION.

Convened at seven o'clock. The Allegheny Quartette Club commenced the exercises with a song.

Prof. Hindman was then introduced and read an essay on "The defects of our common school education," in which he asserted that among the chief defects was the limited extent to which it was carried. Another defect was the length of time spent in the school room, which, he thought, was nearly twice as much as was necessary.

The Allegheny Quartette Club now favored the Institute with another song, entitled "Land of Dreams," which was rapturously encored.

Prof. J. W. Shoemaker, of Philadelphia, was now introduced and occupied the remainder of the session with select readings, interspersed with musical exercises by the Quartette Club.

Prof. Shoemaker's entertainment consisted of humorous, pathetic, tragical and sentimental selections in prose and verse, and was highly enjoyed by the audience, the exercises after each performance being hearty and appreciative. His renditions of "Darius Green and his Flying Machine," a humorous recitation, and "Scott and the Veteran Patriot," were especially deserving of mention.

At the conclusion of the elocutionary exercises the Institute adjourned until nine o'clock this morning.

**A Pocket That Wasn't Picked.**

A case of rather a novel character was brought before the Mayor yesterday, and the facts developed before it was concluded may possibly give some clue as to how many pockets are picked, and why the pickpockets are not arrested.

About four o'clock yesterday afternoon, James O'Halleran, while in Georgi's saloon, in the Diamond, declared that he had been robbed of two twenty dollar bills, and accused Patrick Dwyer, who had been conversing with him, with picking his pocket. Dwyer asserted his innocence and asked to be searched, or agreed to go the Mayor's with his accusor, but O'Halleran would hear to nothing but the calling of an officer and having Dwyer arrested. An officer was accordingly sent for and the accuser and accused taken together before the Mayor, where the accused again asserted his innocence and permitted the officer to search him. The money was not found on his person and he had had no opportunity to conceal it after he had been accused, as he had been closely watched all the time. This circumstance in connection with statements made by O'Halleran created the impression in the mind of His Honor that there was something wrong in the affair. By inquiry he ascertained that O'Halleran had but forty dollars (two twenty-dollar bills) with him when he entered the saloon, and the officer who brought the parties to the office stated that he had observed O'Halleran take money from his vest pocket and place it in a pocket on the inside of his vest, just as they entered the office. The Mayor ordered the officer to search O'Halleran, and the result was the finding of two twenty-dollar bills in the inside pocket of his vest. O'Halleran then asserted that the officer had placed it there, but claimed that it was the same money Dwyer had taken from him. The Mayor did not credit this assertion, however, and Droyer was discharged.

An information was then made against the man who hadn't his pocket picked, charging him with disorderly conduct, and he was required to pay a fine of ten dollars and costs.

Dwyer left the Mayor's office threatening to bring an action against O'Halleran for defamation of character.

**Poisoning Dogs.**

A contemporary announces that the work of destroying dogs has commenced, and that poisoned sausages and morsels of meat loaded with strychnine are being distributed on the streets. If such be true, the persons so engaged in the taking off of the tribe of canine should be punished for cruelty to animals. Poison distributing is a very bad way to accomplish the end desired, and the authorities should frown upon and punish those engaged in the work. Every dog should have a fair show for his life, and if hostile measures are to be adopted, let them be made under the color of law. The most unpopular act of Hon. George Wilson's term of office as Mayor, was the order authorizing the police to distribute poisoned beef to luckless dogs.

**Another Charge.**

We stated yesterday that Henry Goldstein had made information before Alderman McMasters against Carrie Vaughn for trover and conversion, the alleged offence consisting in appropriating a lot of household furniture, valued at $279. Subsequently the same prosecutor lodged another information for larceny against Carrie. He alleges that she agreed to settle the case and gave back part of the goods. During Tuesday night, however, according to his statements, she moved away to some other part of the city, taking about $200 worth of the goods with her. She previously resided at No. 30 Wide alley. A warrant was issued.

A fine assortment of housekeeping dry goods is included in the splendid stock of new spring goods just opened at Bates and Bell's, No. 21 Fifth avenue.

**Predictions of a Local for the Month.**

One of our locals pretends to have discovered an astronomical principle, which will enable him, hereafter, to anticipate all occurrences a month previous, and in order to demonstrate that he is right, lays down the following predictions for the coming thirty days: April 1st—Hundreds of families will remove to new quarters. There will be a few fires and false alarms, up to the fifteenth. During the first ten days the police magistrates will have a dull season, but will pull up and pull in during the remaining part of the month. There will be a coal-boat rise on the 13th of April, and a slight freshet in the Allegheny about the same time. The signs are that more than one dog will die, between this and the 21st. On the 29th there will be a death in the jail yard, and on the same date a colored murderer will hand the reporters of the press a full confession of a life full of awful crimes and deeds of wickedness. There will be no murder during the month, except a legal one, but the signs are that there will be an attempt to take innocent life. On the 24th, or thereabouts, a pardon, fresh from Gov Geary, will be received at the Western Penitentiary. There will be twenty accidents and seven inquests. Several raids will be made on bawdy and disorderly houses in the middle of the month. The paid fire department bill will be before Councils on the last Monday of the month. The deaths, in the city, will average 26 per week. Joseph Liebler the trunk man, No. 104 Wood street, whose large stock of trunks, valises, hand-sacques, carpet-bags and portfolios attract so much attention and secures so many patrons, will continue, every business day of the month, to sell his goods at wholesale and retail at less prices than any other establishment in the city. Our local is positively certain about the truth of the last prediction, but gives the others for what they are worth.

**Amusements.**

OPERA HOUSE.—The engagement of Miss Thompson at the Opera House during the present week, we regret to say, has not been so successful as such talent as Miss Thompson possesses should be. Her renditions of the "Lady of Lyons," "Camille" and the "Hunchback" were very fine, and her support in all the pieces mentioned was all that could be desired. The public, however, appear to have had a surfeit of amusements and allow Miss Thompson, who has no superior in her line of characters, to play to small audiences. To-night she will appear in "Fanchon, the Cricket," and on Friday evening she takes a benefit.

PITTSBURGH THEATRE.—The tastes of patrons of places of amusement it appears have undergone a slight change during the past few weeks, and there is a strong desire manifested to patronize the sensational. The Pittsburgh Theater, at which place there is an excellent varieties troupe, in addition to the Blanchard's and their dramatic dogs, has been doing a good business during the present week.

SMYTHE'S AMERICAN THEATRE.—The new company at the American is becoming decidedly popular with the habitues of the establishment as well as with the public generally, and the consequence is that they have been playing to full houses every night during the week.

ACADEMY OF MUSIC.—The Tyrolean Concert at the Academy of Music tonight will be one of the finest musical entertainments of the season, and doubtless our music-loving people will patronize it liberally.

**A Rare Chance**

To purchasers of Real Estate is now offered by Messrs. Tustin & Klee, in the sale of some 5,000 acres of choice Tennessee land under very favorable terms, which will be made known to parties interested in the same, at their office, No. 87 Grant street

Never was there a better opportunity offered to speculators, and actual settlers, than this tract of land, which abounds with all the privileges which a mild climate, a fertile soil, rich mountains, abundant water courses and valuable timbers can afford.

There certainly is no mistake but that Tennessee, and particularly Middle Tennessee, will be all the rage now in the Real Estate market—for emigrants are beginning to believe and to realize the well known fact, that Tennessee is the garden of the United States, nay, the paradise of agriculturists and gardeners.

**Man Drowned.**

A colored man, whose name we were unable to learn, was accidentally drowned in the Monongahela river above the Pennsylvania forge, near lock No. 1, yesterday evening, between five and six o'clock. It appears he had been at work with a horse and cart and drove in the river at the point mentioned to wash the dirt from his horse and cart, and the water being high the bank gave way and the driver, horse and cart all sunk. A number of persons were engaged in searching for the body, but when our informant left it had not been recovered.

**The Mammoth Cave.**

*Extract from a Private Letter.*

* * * * * We groped about for hours in this wonderful place. I never saw anything like it. The freaks of nature displayed here are very strange, and strike the beholder with awe. But the air in some parts of the cave is close and stifling, and when we came out I found myself saddled with a terrible fever, which entirely postrated me. The physician had never seen a case like it before, and no remedy he prescribed seemed to do the least good. My life was despaired of. Mrs. Wilson, with whom I was residing, had in the house a bottle of PLANTATION BITTERS, and she insisted that I should try it, for she said she knew it to be a certain cure in all cases of fever, debility, ague, dyspepsia, &c. I had but little faith, but finally consented to try it as a last resort. In less than three hours after the first dose my fever left me: in two days I was sitting up, and before Saturday night I was as well as ever. I tell you all this that you may know how to act in any case of fever, or any similar disease. I firmly believe the PLANTATION BITTERS saved my life. * * * * In my next I will tell you about the cave in detail. A. J. P.
